

## New Researcher Development Grants

### *Parameters for Research Budgets*

CHRANZ provides research grants to cover the costs and consumables that are directly related to the student's research topic.

The following are examples of expenditure that CHRANZ does and does not provide funding for.

#### **YES**      **Items that CHRANZ provides funding for:**

- Costs related to interviewing subjects – includes travel fares within New Zealand, rental cars, venue costs, advertising, accommodation\*
- Administrative costs – includes stationery, photocopying, printing, postage, toll calls

#### **NO**      **Items that CHRANZ does not provide funding for:**

- Course enrolment fees
- Computers, software and recording/transcribing equipment – this equipment should be made available within the host institution
- Books, newspaper and magazine subscriptions – host institution libraries should provide these
- Conference fees and associated costs (unless a special case can be made e.g. a CHRANZ sponsored workshop or conference stream)

Please note that the grants are not provided as a lump sum. Rather, CHRANZ will reimburse for approved research costs as and when you provide CHRANZ with receipts for your expenses.

- \* where a contribution is made towards accommodation it is expected that university student hostel accommodation, youth hostels, or the equivalent will be used if at all possible.
